CME ACCREDITATION The Indiana Academy of Ophthalmology,
Inc., is accredited by the Indiana State Medical Association to sponsor
continuing medical education for physicians.

The Indiana Academy of Ophthalmology, Inc., designates this
educational activity for a maximum of 11 *AMA PRA Category 1
Credit(s)*[™]. Physicians should only claim credit commensurate with the
extent of their participation in the activity.

JCAHPO ACCREDITATION The ophthalmic technician course has
been submitted to JCAHPO for consideration of CE credit.

DISCLOSURE All faculty in CME/CEU activities sponsored by
the Indiana Academy of Ophthalmology, Inc. (IAO) are expected
to disclose to the program audience any real or apparent conflict of
interest related to the content of their presentation.

Indianapolis attractions await. From world-class museums and zoos,
sporting events and venues, or vibrant nightlife options, Indy boasts something
to satisfy everyone.

PAPER-LIGHT IAO is reducing the amount of paper used at
our conferences. This is an effort to be responsible toward our
environment and to increase the quality and timeliness of the
resources provided through this learning experience. However, we
do know that completely reducing paper altogether can make the
learning experience harder for some, which is why this conference
is paper-light rather than completely paper-free. Electronic
program materials will replace most paper resources and those
materials we receive in advance will be accessible online before,
during and after the program on the IAO website.

PHYSICAL ASSISTANCE/DIETARY REQUIREMENTS

Those attendees who need additional assistance should
contact the IAO Office at (317) 577-3062 so that
appropriate arrangements can be made.

PHYSICIAN COURSE DESCRIPTION

This program has
been developed from physician forums, member evaluations and
comments in an effort to provide the latest information to attendees
on new diagnostic and surgical procedures in ophthalmology. This
meeting of lectures and question and answer sessions will provide
information concerning updates in ophthalmic treatments and
surgery. Comprehensive ophthalmologists as well as subspecialists
will benefit from attendance.

COURSE OBJECTIVES At the conclusion of this symposium,
attendees will be able to:

1. Identify progression of glaucoma using various methods of
detection
2. Apply the latest information from clinical trials to patient care
3. Knowledgeably approach the patient with both cataract and
glaucoma
4. Knowledgeably select the appropriate treatment according to
type and severity of disease
5. Diagnose and manage complications of glaucoma
procedures
6. Discuss the impact of state and federal legislation on patients
and the ophthalmology practice
7. Understand the importance of coding and documentation in
patient care
